REPORT ON THE RAIL-BORNE TRAFFIC OF BENGAL DURING THE YEAR 1897-98	
CHAPTER I.—GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE HARVESTS AND NOTICE OF PRICES	3
CHAPTER II.—EXTERNAL TRADE OF BENGAL	6
CHAPTER III.—INTERNAL TRADE OF BENGAL	12
STATEMENT OF OUTTURN OF SOME OF THE PRINCIPAL CROPS, DISTRICT BY DISTRICT, DURING THE YEAR 1897-98; COMPILED FROM THE REPORTS PUBLISHED BY THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL	
STATEMENT SHOWING THE AVERAGE WHOLESALE PRICES OF ARTICLES OF TRADE WHICH RULED IN BENGAL DURING THE YEAR 1897-98, AS WELL AS THE RATES OF DEDUCTION MADE FROM THE GROSS WEIGHT TO OBTAIN NET WEIGHT	
STATEMENT SHOWING THE CHANGES MADE IN THE RATES OF RAILWAY FREIGHT DURING 1897-98, AS COMPARED WITH 1896-97	
APPENDIX { STATEMENT No. I.—SHOWING (1) THE TOTAL RAIL AND RIVER-BORNE TRADE OF BENGAL (EXCLUDING CALCUTTA) WITH EXTERNAL BLOCKS, (2) THE TRADE OF CALCUTTA WITH EXTERNAL BLOCKS, AND (3) THE TRADE BETWEEN BENGAL AND CALCUTTA, DURING THE YEAR 1897-98	xxviii
STATEMENT No. II.—TRADE BY RAIL BETWEEN THE DIFFERENT BLOCKS OF BENGAL AND THE DIFFERENT OTHER PROVINCES DURING THE YEAR 1897-98	cclxxxii
STATEMENT No. III.—TRADE BY RAIL BETWEEN THE DIFFERENT BLOCKS OF BENGAL DURING THE YEAR 1897-98	cclxxxiv

values of all the articles of trade specified in the valuation statement appended to this Report have been assigned according to the system explained in paragraph 3 of the Report for 1893-94. In the case of "alizarine and aniline dyes," the value ratio of the former has been taken under the orders of the General of Statistics as the basis of the valuation of the trade in dyes in the trade returns of Bengal.

At the instance of the Director-General of Statistics, and in communication with the Government of the North-Western Provinces and Oudh, the following arrangements have been made for the registration of the river-borne trade between Bengal and those Provinces:—

- (1) Three stations have been established by the Government of the North-Western Provinces and Oudh—one at Maniar on the Gogra, one at Naraunga on the Ganges, and one at Pipraghat on the Gandak for the registration of the trade carried by country boats between the two Provinces.
- (2) A subsidy has been granted to the India General Steam Navigation Company for the supply of the statistics of the traffic carried by their steamers plying between Patna and Ghazipur and intermediate ports.
- (3) The ferry traffic between Ballia and Buxar will be registered under the orders of the Government of Bengal at Chausa, Buxar, and Neazipur, in the Shahabad district, as a tentative measure for one year, after which period it will be considered whether the statistics of traffic registered at these three stations are sufficient to justify their permanent retention.

Arrangements have been made by both Governments for the registration of the inter-provincial river-borne trade, with effect from the quarter ending the 30th June 1898, and for the interchange of returns in the four forms prescribed by the Director-General of Statistics for incorporation in the quarterly and annual returns. The cost of the whole scheme, which amounts to Rs. 2,760 a year, will be equally divided between the two Governments.

CHAPTER I.

GENERAL SUMMARY OF THE SEASONS AND RESULTS OF THE AND NOTICE OF PRICES.

In April, the rainfall was very near the normal in the Pres.

Character of the season.

Burdwan Divisions, but deficient in East :

Bengal. In May, it was much below the

in all Divisions except North Bengal, where it was a little above the normal. In June, the fall was very deficient in North Bengal, in excess in Bihar, near to the normal in other parts of these Provinces. In July, it was near the normal everywhere except in Orissa. In August, the fall was unusually uniform and well distributed. The fall in September was general; it was in excess in East and North Bengal, and about normal in Bihar, and deficient elsewhere. In October, the general rainfall was heavy during the first and third weeks, and every district in the Province received considerably more than the normal fall. A feature of this month was the cyclone which swept over Chittagong on the 24th October, which, together with the tidal-wave, caused considerable damage to the standing crops in some parts of that Division. In November, the rain was well distributed, all Divisions of the Province receiving slight showers. In December, the rainfall was below the normal in all districts. In January, Bengal proper received rain in excess of the normal, while in Bihar, Orissa, and Chota Nagpur it was deficient. In February, the rainfall was above the normal in North Bengal and Bihar, and below the normal elsewhere. Slight showers of little consequence were received in a few districts in March.

2. The season was generally very favourable to the growth of the *bhadoi* crops. The *ante-monsoon* showers of April and

The rains or *bhadoi* and *aus* crops.

May facilitated the preparation of the land for sowing these crops. The timely and abundant

rains of June, July, and August ensured a good harvest all over the Province, except in North Bihar, where floods in September did some damage to the standing crops. The average fall for the whole Province was practically normal. Out of the 45 districts as many as 11 returned crops from 16 to 19 annas, 6 districts returned an average of 16 annas, and all the remaining districts showed a crop from 12 annas to a little below 16 annas, with the exception of Patna, which alone returned a 9-anna crop, due to damage done by floods. Taking the Province as a whole, the outturn of the *bhadoi* crops is estimated by the Agricultural Department at about $16\frac{1}{2}$ annas, as against $10\frac{1}{2}$ annas in 1896-97.

3. Though in May and July the rainfall was mostly below the normal (except in North Bengal and Orissa), it was nearly

The winter rice crop.

normal in June, and unusually uniform and well

distributed in August. The rainfall in September was general, and in October above the normal throughout the Province. The cyclone and storm-wave caused considerable damage to the standing crops in parts of the Chittagong Division. On the whole, the season was very favourable to the growth of the *aman* crop. As regards the outturn, the two districts of Burdwan and Dacca reported bumper crops of 20 annas; 21 districts returned from over 16 to 19 annas; 11 districts returned an average crop, or 16 annas; and the remaining 11 districts showed 14 to less than 16 annas. The Agricultural Department estimates that, for the whole Province, the outturn was 18 annas, as against 14 annas in 1896-97.

The rainfall of the *rabi* season of 1897 was favourable to the germination and growth of all kinds of *rabi* crops. There was copious rain in October, and throughout the season there were timely showers. For the Lower Provinces as a whole the crop is estimated by the Agricultural Department at 14 annas in 1896-97.

rainfall in July and August was slightly deficient, but its distribution was particularly uniform in the jute districts. Of the 11 most important jute-growing districts, Jute. Purnea, Dinajpur, Bogra, Faridpur, and Purnea returned average 16 annas; Dacca, Rajshahi and Jalpaiguri, 15-anna crops; and Chh and Rangpur, 14-anna crops. The crop in Rajshahi is reported to be injured to some extent by insect-pests, and that on the low-lands of Mymensingh was submerged by floods. The outturn for the year according to the district reports stands at 14·9, or practically 15 annas, and the crop is calculated by the Agricultural Department to average 17 annas, as against 14 annas in 1896-97.

The spring cultivation and sowings were greatly retarded for want of timely rainfall, and the heavy fall later in the season also interfered with the healthy growth of the plants and the proper manufacture of the dye. Loss was also caused by floods in Purnea. The season was therefore unfavourable for the indigo crop both in Bihar and in Bengal, and the Agricultural Department estimates the outturn at 9½ annas, as against 14 annas in 1896-97.

7. The heavy rain in September and October interfered with the sowing and with the growth of the seedlings, but the Tobacco. showers in the winter and spring were very beneficial, and the outturn for the Province is estimated by the Agricultural Department at 14 annas, as against 12 annas in 1896-97.

8. Owing to the favourable character of the season, the outturn of the sugarcane crop was about 15 annas, as against 12½ annas in 1896-97.

9. The heavy rain towards the end of October retarded the completion of the sowings and damaged the young plants which had sprung up. The strong west winds which set in at the time of scraping, dried up the juice as it exuded. On the whole, the outturn is estimated by the Agricultural Department to be slightly better than in 1896-97, being 14 annas as against 13½ annas.

10. The season was a bad one for the ganja crop in consequence of the heavy rain in the beginning of February and the appearance of insect-pests later on. The outturn is estimated at 13 annas, as against 15 annas in 1896-97.

11. As a result of the excellent harvests of the year, the price of common rice on the 31st March 1898 was everywhere lower than on the corresponding date in 1897, except in the Singhbhum district, where it sold for 12 seers per Re. 1, as against 12 seers 14 chittacks on 31st March 1897. Of the 10 selected districts, the price in Calcutta was practically the same as on the last day of the year 1896-97, being 8 seers 3 chittacks the rupee, as against 8 seers. In the Burdwan district it fell by 30·86 per cent., in the 24-Parganas district by 22·50 per cent., in the Backergunge district by 22·29 per cent., in the Chittagong district by 17·50 per cent., in the Patna district by 51·22 per cent., in the Darbhanga district by 34·29 per cent., in the Bhagalpur district by 55·48 per cent., in the Puri district by 35 per cent., and in the Hazaribagh district by 35·61 per cent.

12. A detailed statement giving the outturn of the above crops, district by district, is appended to this report.

RETAIL PRICES OF FOOD-GRAINS.

13. The abstract below shows the average retail prices in Bengal during the year 1897, as compared with those ruling in year:—

CHAPTER II.

16
th
ic

EXTERNAL TRADE OF BENGAL.

STATEMENT II.

Compared with the previous year, the trade of Bengal with other of India registered on the railways during the year 1897-98 was as

		1896-97.		1897-98.	
		Quantity.	Value.	Quantity.	Value.
		Mds.	Rs.	Mds.	Rs.
Imports into Bengal	...	1,11,51,996	13,17,54,909	1,56,50,099	14,08,97,804
Exports from Bengal	...	2,71,64,380	12,10,31,299	2,38,54,600	12,26,27,407
Total	...	3,83,16,376	25,27,86,208	3,95,04,699	26,35,25,301

The contraction noticed in the import trade of Bengal in 1896-97 was chiefly due to the failure of the food-grain and oilseed crops all over India in 1896, but the excellent harvests reaped in 1897 led to a great recovery in this trade, the importations in the year under report showing a large increase of 44,98,103 maunds, or 40·33 per cent., as compared with the figures for the previous year, but the export traffic decreased by 33,09,780 maunds, or 12·18 per cent., the net result in the gross traffic carried both ways being an increase of 11,88,323 maunds, or 3·10 per cent. The articles in the import trade which showed the largest increase were wheat (17,92,080 maunds), gram and pulse (2,37,618 maunds), linseed (2,23,750 maunds), salt (1,53,593 maunds), hides of cattle (1,43,745 maunds), poppy (89,150 maunds), rice (70,997 maunds), and miscellaneous food-grains (7,40,220 maunds); and those which showed the greatest decrease were rape and mustard seed (1,54,461 maunds), saltpetre (99,621 maunds), raw cotton (86,051 maunds), and indigo (27,743 maunds). In the export traffic, the largest increases occurred under unrefined sugar (3,01,282 maunds), wrought iron and steel, (2,34,303 maunds), European cotton piece-goods (1,44,750 maunds), and coal and coko (1,26,339 maunds); the articles which showed a considerable falling off were gram and pulse (29,30,437 maunds), rice (2,25,093 maunds), miscellaneous food-grains (19,49,522 maunds), and salt (92,427 maunds).

2. The abstract below shows, province by province, the sources of supply of the imports and the destination of the exports during the past two years. Columns are also added to show the percentage borne by the aggregate trade of each province to the total traffic of the Lower Provinces:—

Imports into Bengal.			Exports from Bengal.		
WHENCE IMPORTED.	Total Mds.	Percent- age borne to total trade.	WHITHER EXPORTED.	Total Mds.	Percent- age borne to total trade.

Rape and mustard seed	1,54,461
Saltpetre	99,611

5. Owing to the late rains, the area under cotton cultivation in the Central and North-Western Provinces and Oudh was restricted, and this fact, coupled with the slack demand for export by sea, led to a decline in the supplies sent from those Provinces to Calcutta. The imports into Bihar from the Upper Provinces also showed a decrease.

6. The contraction was due to a smaller crop in the North-Western Provinces and Oudh, and to a falling off in the demand in Calcutta for export by sea to foreign countries. The shipments during the year under report to the United Kingdom, which is by far the largest consumer, fell by 54·4 per cent., owing to the large stocks on hand in the home markets.

7. The improvement occurred entirely in the imports from the North Western Provinces and Oudh and the Panjab to Calcutta and Bihar for local consumption. The exports by sea were trifling.

8. There was a very large increase of 10,48,835 maunds in the quantity of food-grains (other than wheat) sent from the North-Western Provinces and Oudh, the Panjab, and the Central Provinces to Calcutta, Western Bengal, and Bihar, where they were in requisition for local consumption. The imports consisted mainly of gram and pulse (2,37,618 maunds) and the cheaper cereals (7,08,989 maunds).

9. The trade under this head is practically confined to raw hides and skins. There was a brisk demand for these articles in Calcutta for export to Europe and America, and hence the imports from the Upper and Central Provinces and Berar showed a large increase of 1,43,745 maunds, or 47·75 per cent. Germany and Italy are now the principal consumers of raw hides, and the United States of raw skins.

10. The large advance of 1,53,593 maunds, or 40·31 per cent., in the imports of salt was chiefly in the imports from Madras to Orissa. Since the opening of the East Coast Railway, Madras salt, which is superior in quality to Puri salt, is largely imported and sold at a cheaper rate than the indigenous salt.

11. The decline of 99,621 maunds, or 29·67 per cent., in the imports of saltpetre into Calcutta from the North-Western Provinces and the Panjab, is attributed to reduced manufacture and to a restricted demand from the United Kingdom, which is the chief customer, and where extensive stocks of the previous year's importations, which were the largest on record, remained unsold. The shipments to Germany, the United States and the Straits Settlements also showed a decrease.

12. The oilseed crop in the North-Western Provinces and Oudh was very good during the year under report, and there being a demand in Calcutta for local consumption and for export to foreign countries, the supplies of all kinds of these seeds (except rape and mustard seed) received from those Provinces showed an increase. The chief importers of linseed are the United Kingdom, Germany and France, and of poppy seed, Belgium and France. Though the quantity of rape and mustard seed sent to Calcutta from the North-Western Provinces and Oudh and the Panjab showed a falling off, the requirements of the United Kingdom, Germany and France, which improved considerably, were met by larger supplies drawn from the internal blocks.

13. The following statements show the principal articles exported during the past year in which fluctuations were most conspicuous in comparison with the figures for the previous year:—

Articles showing an increase in comparison with 1896-97.

	Quantity of increase. Mds.	Percentage of increase. Per cent.
Coal and coke ...	1,26,339	1·16
Cotton piece-goods, European ...	1,44,750	26·12
Iron and steel (wrought) ...	2,34,303	85·20
Kerosine ...	52,461	8·42
Sugar, unrefined ...	3,01,282	86·81
Tobacco, unmanufactured ...	72,815	26·25

Articles showing a decrease in comparison with 1896-97.

	Quantity of decrease. Mds.	Percentage of decrease. Per cent.
Wheat	57,588	63·66
Rice not in the husk ...	2,25,093	5·81
Gram and pulse ...	29,30,437	82·29
Salt	92,427	21·89
Miscellaneous food-grains	18,91,934	72·38

14. The exports, though better than in 1896-97 by 1,26,339 maunds, or 1·16 per cent., were still much below the figures of previous years. The increase occurred in the despatches from the Bihar and Western Bengal blocks to the North-Western Provinces and Oudh, the Panjab, Rajputana, the Central Provinces, and Berar.

15. Notwithstanding a decrease of 17 per cent. in the imports by sea of cotton piece-goods into Calcutta, the despatches from this city to the North-Western Provinces and Oudh, the Panjab, the Central Provinces, and Rajputana showed a large increase of 1,44,750 maunds, or 26·12 per cent. This was to be expected, as owing to the prevalence of distress in the importing Provinces, caused by the famine in 1896-97, the supplies drawn from Calcutta in that year diminished. It may be mentioned that the piece-goods traffic of the Upper and Central Provinces and Rajputana and Central India is almost entirely with Calcutta, the consignments from Bombay to those Provinces being insignificant.

16. The scarcity which prevailed in India in 1896-97, and stimulated large exports of all kinds of food-grains from the Lower Provinces, having ceased during the second half of the year under report, the trade under this head showed a very heavy decline, especially in the despatches of gram and pulse and the cheaper grains. The most prominent fluctuations were a very large decrease of over 62 lakhs of maunds in the exports of all kinds of grains from Calcutta, Bihar, and the Western Bengal block to the North-Western Provinces and Oudh, and an increase of 12½ lakhs of maunds in those from Calcutta to the Central Provinces. In the case of rice not in the husk, however, it will be seen from the table on page 7 of this report that though the exports from Bengal as a whole diminished from 38¾ lakhs to 36½ lakhs of maunds, *i.e.*, by 2¼ lakhs of maunds, those from Calcutta rose from 21¾ lakhs of maunds to 31¼ lakhs of maunds, or by 9½ lakhs of maunds, owing chiefly to the heavy importations of Burma rice, which was thence distributed all over the province to meet the demand caused by the famine.

The subjoined statement shows in a concise form the total exports of all kinds of food-grains from Bengal to each Province during the past two years:—

WHENCE EXPORTED.	To the North- Western Provinces and Oudh.	To the Panjab.	To the Central Provinces.	To Rajputana and Central India.	To other Provinces.	Total.

Other places in the { 1896-97	80,242	683	1,760	1,226	1,40,195	2,24,106
Lower Provinces. { 1897-98	7,678	14	1,709	...	2,43,245	2,52,646
Total ... { 1896-97	90,12,706	4,21,972	2,04,143	3,53,753	1,50,052	1,01,42,626
... { 1897-98	27,04,502	3,64,830	14,31,608	2,15,595	3,21,039	50,37,574

17. There was a considerable advance of 2,34,303 maunds, or 85·20 per cent., in the exports of wrought iron and steel from Metals—iron and steel (wrought). Calcutta to the North-Western Provinces and Oudh and the Panjab. This doubtless consisted of iron building materials, the use of which is rapidly extending everywhere.

18. There was a recovery from the depression of the previous year, the exports from Budge-Budge to the North-Western Provinces and Oudh and the Panjab showing an increase of 52,461 maunds, or 8·42 per cent. Kerosine oil.

19. In spite of the large increase of 21·3 per cent. in the imports of salt into Calcutta by sea from foreign countries and the fall in the price of this article, the despatches to the North-Western Provinces and Oudh decreased by 92,427 maunds, or 21·89 per cent. The diminution in the exports of the sea-imported salt is probably due to the indigenous products of Rajputana and the Panjab competing more successfully with the imported article. Salt.

20. Owing to a good sugarcane crop in the Lower Provinces, and to a demand from the North-Western Provinces and Oudh, the Central Provinces, Berar, and Rajputana for consumption, the exports of unrefined sugar from Bihar and Calcutta to those Provinces showed a considerable increase of 3,01,282 maunds, or 86·81 per cent. Sugar, unrefined.

21. The tobacco crop in Bihar was much better than in 1896-97, and this led to a further increase in the exports from that block to the North-Western Provinces and Oudh and the Central Provinces. Tobacco, unmanufactured.

CHAPTER III.

INTERNAL TRADE OF BENGAL.

STATEMENT III.

The total volume of the internal trade of Bengal, which passed from one registration block to another within the Lower Provinces during the past two years, is shown in the following statement:—

Exports from the—	Into the Bihar block.	Into the Western Bengal block.	Into the Eastern Bengal block.	Into the Northern Bengal block.	Into the Dacca block.	Into the Calcutta block.	Into the Chota Nagpur block.	Total.	Increase (+) or decrease (—) as compared with 1896-97.

2. The net quantity of the downward and upward traffic, and the percentage of the Calcutta traffic to the total trade, will be seen from the subjoined statement:—

	Total traffic.		Calcutta traffic.		Percentage of the Calcutta traffic to the total trade.	
	1896-97 Mds.	1897-98. Mds.	1896-97. Mds.	1897-98. Mds.	1896-97. Per cent.	1897-98. Per cent.
Downward traffic	... 9,42,94,120	11,56,92,850	6,67,67,042	8,53,37,128	70.81	73.76
Upward "	... 2,40,54,315	2,64,92,581	1,69,96,723	1,99,47,530	70.66	75.29
Total	... 11,83,48,435	14,21,85,431	8,37,62,765	10,52,84,658	70.78	74.04

Both the downward and upward trade showed a further increase of 22.57 per cent. and 10.13 per cent., respectively, and the Calcutta traffic also improved by 27.81 per cent. and 17.36 per cent., respectively. The principal fluctuations in the downward trade were an increase of 1,72,99,277 maunds under coal and coke, 27,76,202 maunds under raw jute, 11,47,139 maunds under rape and mustard seed, and 6,36,725 maunds under rice, against a falling off of 13,19,205 maunds under food-grains other than rice, 2,31,660 maunds under linseed, and 1,12,057 maunds under saltpetre. In the upward traffic, rice and paddy exhibited an increase of 29,30,525 maunds, and sugar (refined and unrefined) of 3,10,072 maunds, while the despatches of kerosine oil declined by 1,42,527 maunds, gunny-bags and cloth by 36,552 maunds, and European cotton twist and yarn by 19,789 maunds.

Calcutta Trade.

3. The following statement shows the imports of the chief articles of merchandise into Calcutta by all routes, and the exports therefrom by sea, during the past two years :—

5. *Coal and coke.*—The large increase of 1,72,99,277 maunds, or 29·43 per cent., in the imports of coal and coke was due to a demand for use in mills and factories, for brick-burning purposes, and for export to Ceylon, the Straits Settlements, Bombay, Madras, and Burma. The shipments to Singapore advanced by 487·3 per cent., owing to the Japanese authorities having restricted the output of the Japanese collieries. The importations of foreign coal showed a further diminution, the figure for the past year being 7,497 tons, as against 8,864 tons in the previous year.

6. *Cotton piece-goods (European).*—The trade under this head showed a slight improvement in the despatches from Calcutta to Bihar and the Western Bengal blocks.

7. *Food-grains.*—As a result of the recent famine, which prevailed for half the year under report, the stocks of food-grains became depleted, and consequently the imports, chiefly into Calcutta, of all kinds of edible grains, except rice, showed a heavy decline of 13,19,203 maunds, two-thirds of which occurred under paddy, gram and pulse. Under rice, however, owing to large importations from Burma, there was a considerable increase of 27,64,075 maunds in the supplies sent from Calcutta to the Bihar, Western, Eastern and Northern Bengal blocks, as against a decrease to the Dacca block.

The following statement shows in a concise form the circulation of all kinds of food-grains between the different internal trade blocks in the Lower Provinces, during the past two years:—

8. *Hides*.—Owing to a brisk demand for export by sea, the trade under this head showed a great recovery, the increase over the figures of 1896-97 being as much as 50·15 per cent. The supplies were drawn by Calcutta from the Bihar, Northern Bengal and Dacca blocks.

9. *Jute, raw*.—The large increase of 27,76,202 maunds, or 22·27 per cent. in this traffic, was in the supplies sent to Calcutta from the Eastern and Northern Bengal and Dacca blocks, and was due to a better outturn and to a good demand from the United Kingdom, Germany and the United States. The total exports by sea, which showed an increase of 14 millions cwts., exceeded by 32 per cent. the figures of 1896-97.

10. *Gunny-bags and cloth*.—Owing to a decline in the despatches of food-grains to Calcutta, there was a small demand in Bihar, Eastern Bengal and Northern Bengal for gunny-bags and cloth for bagging purposes, and hence the trade under this head showed a falling off of 36,552 maunds, or 10·28 per cent.

11. *Kerosine oil*.—There was a further increase of 1,42,527 maunds, or 15·03 per cent. in the upward traffic in kerosine oil which is rapidly ousting vegetable oils for lighting purposes. The improvement was in the quantities sent from Calcutta to Eastern and Northern Bengal, and from Eastern Bengal to Bihar and Western Bengal. The imports into Calcutta by sea last year were the largest on record and prices ruled low.

12. *Oil-seeds*.—Notwithstanding the large outturn of oil-seeds in the Lower Provinces, the despatches of linseed to Calcutta from the Eastern Bengal and Bihar blocks diminished by 2,31,660 maunds, or 8·47 per cent., owing probably to larger supplies having been drawn by Calcutta from the North-Western Provinces and Oudh. There was, however, a considerable advance of 11,47,139 maunds, or 83·37 per cent., in the quantity of rape and mustard seed sent to Calcutta from Bihar, and the Eastern Bengal and Northern Bengal blocks, and from Bihar to Western Bengal; the quantity received by Calcutta from the North-Western Provinces and Oudh declined. The demand for linseed and specially for rape and mustard seed, for export to Europe, was brisk.

13. *Salt*.—The increase recorded in 1896-97 in the upward traffic in salt was followed last year by a decrease of 9·15 per cent. in the supplies sent from Calcutta to the Bihar, Eastern Bengal, Northern Bengal and Dacca blocks.

14. *Saltpetre*.—The quantity of saltpetre manufactured in Bihar was smaller than in 1896-97, and this fact, coupled with a restricted demand for

export by sea, led to a decline of 1,12,057 maunds, or 23·82 per cent., in the despatches from Bihar to Calcutta.

15. *Sugar*.—The increase in the upward trade in refined sugar, amounting to 66,781 maunds, or 43·78 per cent., occurred in the exports from Calcutta to Bihar, Eastern Bengal and Northern Bengal. The imports of refined beet sugar into Calcutta by sea last year were the highest yet recorded. The quantity of unrefined sugar also rose by 2,43,291 maunds, or 72·95 per cent., owing to larger despatches from Calcutta to Bihar, Western, Eastern and Northern Bengal. Large quantities of unrefined sugar are imported into Calcutta from Mauritius.

16. *Tobacco, unmanufactured*.—The past year's trade showed a trifling increase of 19,694 maunds, or 2·89 per cent. The advance was in the supplies sent to Calcutta from the Northern Bengal and Dacca blocks. The figures of this trade for some years show that it is steadily improving, owing chiefly to a demand from Holland and the coast ports, especially Burma. Of the total export of 17 million pounds of tobacco leaf to the coast ports, nearly 15 million pounds went to Burma.

APPENDIX.

Statement of outturn of some of the principal crops, district by district, during the year 1897-98, compiled from the reports published by the Department of Land Records and Agriculture, Bengal.
